CC: Beth Ericksen; Doug Jensen

Dear Mr. Caruso,

With regard to your request for an extension of time to complete the reclamation bonding requirements at your ML26996 mine (permit number S0250014), the Division is willing to extend the deadline until the end of January 2007, conditioned upon you getting the permit fees all paid up immediately. Our records indicate that you are delinquent for the past two years, which equates to \$300. Mining operations at this site should be suspended until the permit fees and the reclamation surety are posted. Please contact Doug Jensen, reclamation specialist, at (801) 538-5382 in order to determine the proper bond amount for your site. Once you have the appropriate amount determined, you should contact Beth Ericksen, Bond Coordinator, at (801) 538-5318 to acquire the necessary forms and complete the necessary paperwork. Thank you for your help in completing these important requirements. Please call if you have any questions.

Sincerely,
Daron R. Haddock
Permit Supervisor
